

This manual describes how you, as employee or student of Maastricht University, can configure the HTTP Commander app for iOS or Android.

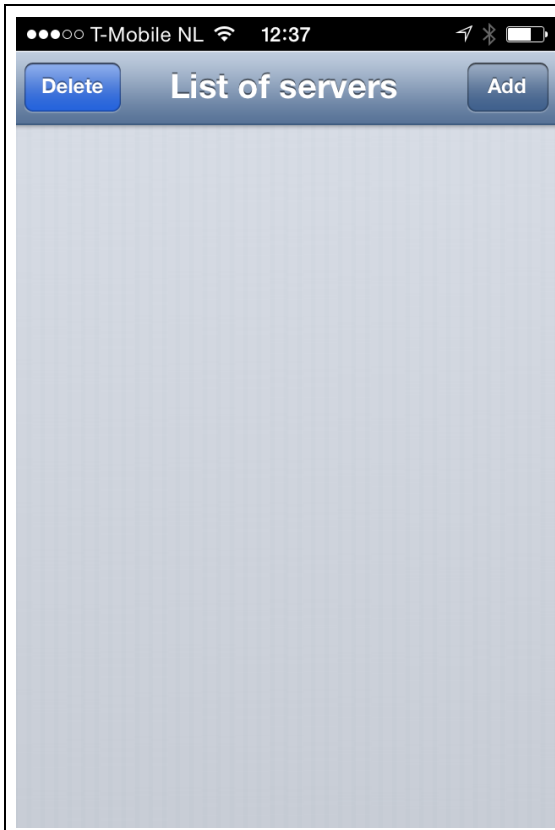

**Caution:** screenshots and icons may differ depending on your phone and/or app.

**What do you need?**

- An Android or iOS device.
- An employee or student account at Maastricht University.

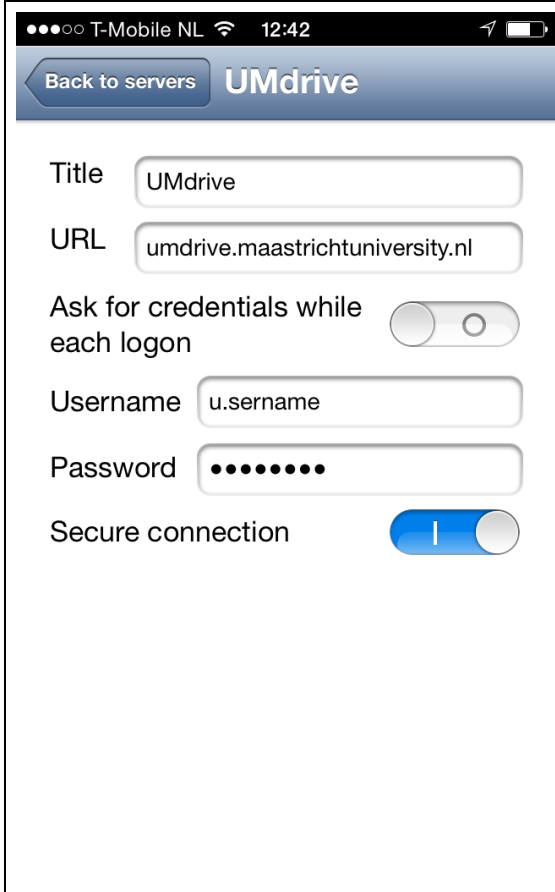

This manual assumes that HTTP Commander is not yet configured.

	<p><b>Step 1:</b> Install the App "HTTP Commander" by Element-IT from Google Play or Apple App store.</p>
	

**Step 2:**

Remove existing servers and add a new one by pressing "Add".

**Step 3:**

Choose a title, preferably "UMdrive".

**iOS (Apple):**

URL: umdrive.maastrichtuniversity.nl

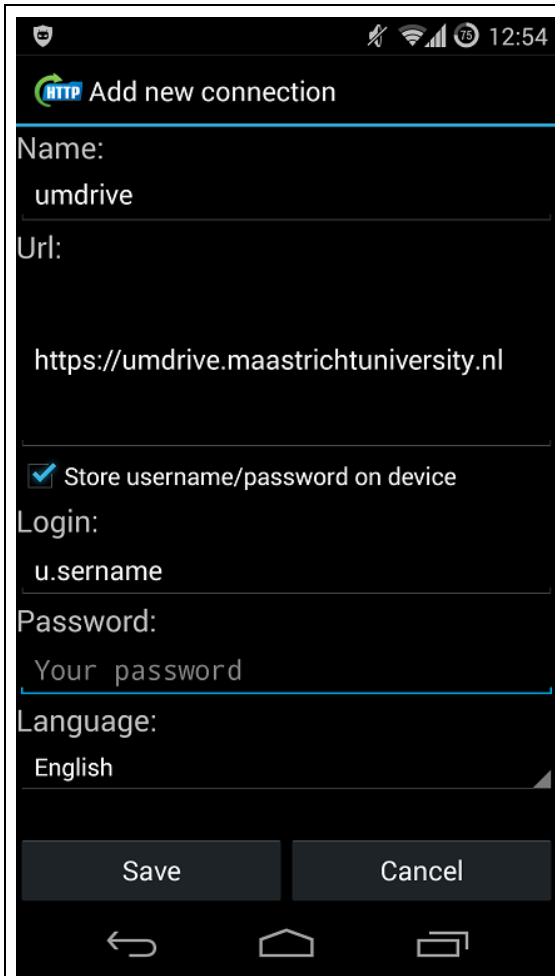

Username: your username

(for students: i<studentnr>)

Password: your password

Secure connection: ON

If you have an Android device, see the next step.

**Android:**

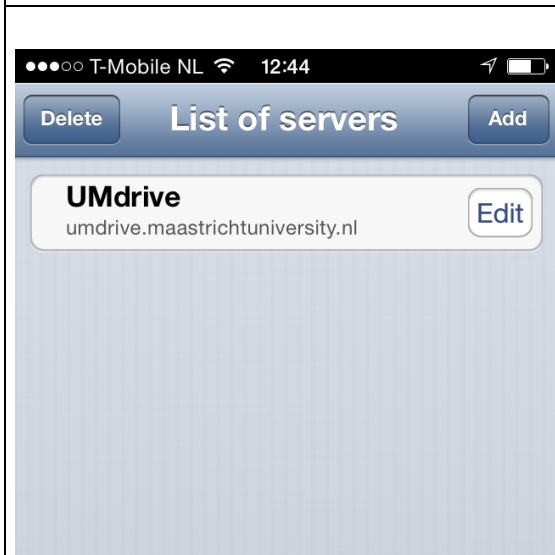

URL:

https://umdrive.maastrichtuniversity.nl

Username: your username

(for students: i<studentnr>)

Password: your password

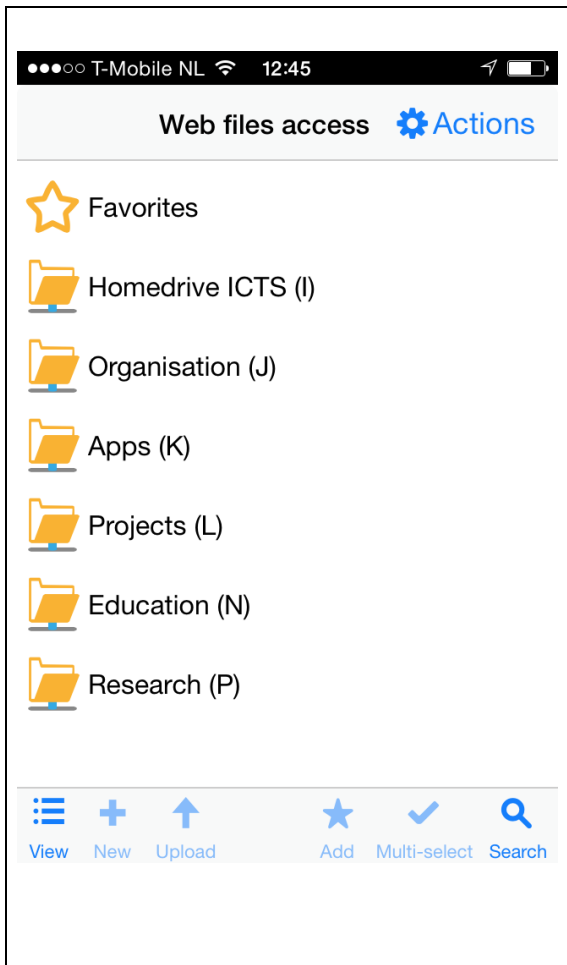

**Step 4:**

Go back to the main menu and start the saved connection.

 <p>Web files access  Actions</p> <ul style="list-style-type: none"><li> Favorites</li><li> Homedrive ICTS (I)</li><li> Organisation (J)</li><li> Apps (K)</li><li> Projects (L)</li><li> Education (N)</li><li> Research (P)</li></ul> <p>      View New Upload Add Multi-select Search</p>	<p><b>Step 5:</b></p> <p>You can now see the familiar lay-out of the website. The app is ready to be used!</p>
